REMARKS

Applicant provisionally elects Group II drawn to claims 10-15. As the Examiner suggests that the method may be practiced with an apparatus without the shield, Applicant has amended independent claim 10 to remove the shield. In response to the Examiner's assertion in paragraph 4 of the restriction requirement, Groups II and III are no longer related as product and process of use due to removal of the shield from independent claim 10. Applicant respectfully believes that even under this election, Applicant is entitled to pursue Claims 10-18. New claims 19-20 are directed to claim 10 and read on the elected embodiment such that Applicant is also entitled to pursue claims 18-20.

As to the Examiner's assertions in paragraph 8, Applicant has amended drawing 2 to remove the sectional lines but otherwise respectfully disagrees with the Examiner and suggests that any person skilled in the art is enabled to make and use the invention following the teaching within the specification of the presented invention.

Respectfully Submitted,
